

# Rapid Azure Virtual Desktop Deployment

**Evolve 365**  
A Planet Technologies Service

We are witnessing a transformation in how we work and access compute resources. With the world needing the flexibility to work from home with the need to access applications or resources remotely and securely Planet Technologies has created an offering to rapidly enable these goals using Microsoft Azure Virtual Desktops. These engagements enable organizations the flexibility they need for today and tomorrow to provide secure access to applications and resources not traditionally accessed remotely.

**Pricing Starts at \$20K**
