

Azure ✓ Advantage

Remote Managed Service for Your Azure Environment

Technology is moving quickly. Identifying, obtaining and retaining the right resources and keeping your team up to speed and ready to take on new challenges, while still managing their day-to-day responsibilities can be a daunting task. Gaining expert experience in new environments is a difficult thing to do while managing all your existing workloads. Azure Advantage is an easy solution to these common problems, freeing you up to balance your resources while migrating to and operating in the new world of the Cloud.

Overwhelmed by day-to-day management of your Azure environment? Let Planet Technologies take over! Turn to the company that Microsoft trusts the most to help manage, maintain, and grow your Azure environment.

Support

- > Strategic Architectural design in line with best practices
- > Metering and consumption guidance for your Azure environment
- > Operational Support and Escalation

Management

- > Real-time Environment Monitoring
- > Configuration of Automated Deployment and Management tools
- > Monthly Strategic Reports

Technical Advisory Services

- > Trusted Advisor Support for Strategic Initiatives
- > Recurring Stakeholder Operational Review

Azure Advantage gives you immediate access to Planet’s resources for management of your Azure environment. While you focus on business priorities. From management to overall strategic direction – **Planet Technologies is the partner that will ensure your success.**

Reach out today to learn how Azure Advantage can be designed to fit your management needs.
