Navigating the Maze of Compliance and Regulation with Planet Technologies

Planet is standing at the forefront of cybersecurity management and compliance. Our dedicated and highly skilled team offers a comprehensive range of services and solutions that ensure the utmost security and regulatory adherence for your organization.

With over 75 years of experience and solid foundations in NIST 800-53, NIST 800-171, FedRAMP, FISMA, HIPAA, and other frameworks compliance, our team deeply understands industry standards and regulations. We hold prestigious certifications such as CISSP, CISM, CISA, CDPSE, RPA, RPO, CompTIA Security+, and more. Also, our team members hold advanced degrees in Cybersecurity, IT, and Computer Science, and Business (i.e., MS, MBA, and Ph.D.).

By partnering with us, you gain access to a team of former CISOs, vCISOs, IS Security Managers, IS Security Officers with decades of expertise, certifications, and most importantly real-world experience. Our commitment to excellence and compliance, combined with our unwavering focus on security, ensures that your organization is fortified against cyber threats and fully complies with industry regulations.
