

Microsoft Copilot Agent Services from Planet Technologies

Accelerate AI-Powered Productivity with Agentic AI

In a world where time-to-impact matters, organizations are under pressure to harness AI not just as a concept—but as a practical, daily advantage. That's where Planet's AI Agent Mastery Program comes in.

AI Agent Mastery Program

Planet's AI Agent Mastery Program helps organizations unlock real-world value from Microsoft 365 Copilot and Copilot Studio—fast.

Strategic Use Case Discovery

We help you identify and prioritize AI agent opportunities that align with your goals, workflows, and mission. Together, we define the use cases that will deliver the most value—fast.

Deployment of Three Powerful Agents

Accelerate time-to-value by deploying three powerful agents, including two pre-built options from our curated scenario library and one custom-built agent tailored to your specific workflows.

Go Further with a Copilot Studio Proof of Concept

In just 1–2 weeks, we can help you design, build, and validate an enterprise-ready agent tailored to your unique needs using Microsoft Copilot Studio.

Ready to get started?

Let's talk about where Agentic AI can take you. Visit go-planet.com for more information.
