

# Azure Secret & Planet Technologies

## Experience Matters in the Cloud

Planet Technologies was selected as the first Microsoft Partner to work in the Azure Secret environment proving that EXPERIENCE MATTERS in the cloud! Planet's partnerships with Department of Justice and Microsoft allowed us to be the first (and longest) Microsoft System Integrator to successfully deploy services (Networking, Storage, Load Balancing to name a few) in Azure Secret. This includes solutions using Infrastructure as a Service (IAAS), SharePoint 2019 IAAS Farm, managed SQL, Logic Apps, App Services and Azure DevOps. Planet was also the first to deploy in Production a highly available disaster recovery compliant Azure infrastructure using a DevOps methodology to take advantage of Azure Secret's IAAS platform. The results were successfully demonstrated to Microsoft & Customer Leadership and are being implemented today.

### Comprehensive and Powerful Cloud Services Built Exclusively to Support US Agencies and Partners Working with Secret US Security Classification Level Data

- ✓ Enhanced Security & Integrity
- ✓ Classified Workloads
- ✓ Fast Access to Sensitive Mission-Critical Information
- ✓ Three Dedicated Regions over 500 Miles Apart
